

11.05.2017

Happy Hands is an inclusive support group for families affected by Deafness or that experience communication difficulties due to a disability. The aim is to enable the development of effective communication within the family. There is little to no funding available for families of Deaf children to access British Sign Language Training.

The Happy Hands Group are constantly fundraising to assist families to access sign language courses by making grants available to pay for course assessment fees. If you think that you may be eligible to apply then please fill in your details overleaf and return to the Deafness Resource Centre, for the attention of Happy Hands
